**COMMERCE DEPARTMENT TO PROPEL U.S. COMPANIES AT MUNICH'S
TRANSPORT & LOGISTICS 2007 SHOW**

WASHINGTON, D.C.- August 9, 2006 — U.S. companies in the transport & logistics industry can expand business at the transport logistic 2007 show in Munich, Commerce Department officials say.

transport logistic 2007, held at the Munich Trade Fair Centre in Munich, Germany from June 12-15, 2007 is a leading European logistics industry exhibition, attracting visitors from over 75 countries and representing all sectors of the industry.

Germany is the “gateway to Europe”, according to the U.S. Commercial Service there, and offers U.S. companies a prime location to centralize U.S. product distribution throughout Europe. transport logistic 2007 offers U.S. companies’ excellent opportunities to sell logistics and transport technology in a market that continues to be one of the steadiest in the industry.

With this in mind, the U.S. Commercial Service (CS) of the U.S. Department of Commerce has granted transport logistic 2007 its Trade Fair Certification status, establishing a U.S. Pavilion for small and medium-sized exporters. Trade Fair Certification assures the transport logistic 2007 exhibition of U.S. Commercial Service support in both the U.S. and in Europe. Companies exhibiting in the U.S. Pavilion have an excellent venue to establish or expand overseas distribution, generate sales leads, meet with existing clients, and work with Commerce trade experts to find the right buyers and partners.

The U.S. Department of Commerce's Trade Fair Certification (TFC) Program is a cooperative arrangement between private sector trade show organizers and the U.S. Government. The TFC Program seeks to broaden the base of U.S. exporters, particularly new-to-export and new-to-market companies, by introducing them to key trade fairs where they can meet their export objectives.

The U.S. Commercial Service helps U.S. businesses, particularly small and mid-sized companies make international sales. The agency’s global network includes 107 U.S. offices and 161 in countries around the world. In 2001, the U.S. Commercial Service helped U.S. businesses generate export sales worth more than \$34 billion. For more information on the U.S. Commercial Service, please visit www.BuyUSA.com.
